

## NON-EU STUDENTS: APPLICATION OF DIFFERENTIATED REGISTRATION FEES

The strategy for the attractiveness of international students, known as "Welcome to France" and launched by the government in November 2018, presents the dual objective of:

➔ welcome more (500 000 international students in France by 2027)

➔ welcome better

by making it possible to:

- sustainably fund hospitality improvement measures,
- finance scholarships and exemptions for the best candidates to study in France.

It is within this context that the annual ministerial order on registration fees in a French higher education institution sets up **differentiated registration fees for non-EU students**.

These students are automatically subjected to this by default.

BUT, the chart below nevertheless identifies different categories of students, depending on whether they are:

✗ **NON-subjected** ➔ **not affected**

✓ **subjected** ➔ **affected**

✓✗ **subjected AND exempted** ➔ **affected BUT eligible students who comply with the conditions listed in the following chart, justifying a situation that enables them to reduce the amount of their registration fees to the same level as the one applicable to EU students.**

### Who is affected (from a regulatory point of view) ?
